Reversible Yard Scrapers

Fleming Agri-Products are one of the largest manufacturers of Reversible Yard Scrapers in the UK and Ireland. With over 50 years' experience manufacturing Yard Scrapers, the scraping requirement is still the same but the strength and durability of the machine for doing the job have changed.

Designed and manufactured from high quality steel and rubber, finished with a 5 stage painting process culminating in oven curing or galvanizing for a hard wearing finish.

The Fleming range of Scrapers have evolved to be a market leader in the UK and Ireland.
